Minister and assistant minister costs	
Other ministry and property costs	10-14
Cost recoveries Charge for 2009	
Recommendation	

Purposes of the proposed ordinance

- The purposes of the proposed ordinance are
 - (a) to determine the estimated ministry and property costs for 2009 which are to be paid for, or on behalf of, parochial units in the Diocese, and
 - (b) to authorise the Standing Committee to apply the cost recovery charges towards the ministry and property costs incurred on behalf of parochial units.
- 2. This report focuses on the policies and principles underlying the proposed ordinance. The attachment lists the parochial units with the estimate of their cost recovery charges for 2009.

Components of ministry and property charge

- 3. The proposed ministry and property charge for 2009 comprise 2 components -
 - (a) the minister and assistant minister charge, and
 - (b) the variable ministry and property charge.

Minister and assistant minister charge

4. Each parochial unit is to pay a minister and assistant minister charge, based on the number of ministers and assistant ministers licensed to the parochial unit. For 2009 the charge, representing superannuation, long service leave, stipend continuance insurance and sickness and accident fund contributions, is calculated to be \$11,216 for each minister or assistant minister with 7 or more years service, and \$10,338 for each other assistant minister.

	2008 actual Minister and Assistant Minister 7+ years	2008 actual Assistant Minister 1-6 years	2009 proposed Minister and Assistant Minister 7+ years	2009 proposed Assistant Minister 1-6 years \$
Superannuation	8,481	7,633	8,614	7,753
Long Service Leave	1,148	1,148	1,152	1,152
Stipend Continuance Plan (net of \$250 rebate in 2008)	850	850	1,051	1,051
Sickness/Accident Fund	240	240	235	235
Estimated Total Charge	10,719	9,871	11,052	10,191
Increase/(decrease) over previous year	(1.7%)	(2.3%)	3.1%	3.2%

- 5. The amount of the superannuation contribution is a specified proportion (17%) of the minimum stipend. The estimated superannuation contributions for 2009 are based on the actual 1.6% increase in minimum stipends in 2009.
- 6. The contribution for long service leave is to fund the Sydney Long Service Leave Fund which, in turn, pays contributions to the General Synod Long Service Leave Fund. The estimated contribution incorporates a projected 5% increase in the contributions required by the General Synod Long Service Leave Fund.
- 7. The Stipend Continuance Plan provides income benefits to clergy in the event of long term sickness or incapacity, underpined by an insurance policy. The premium on that insurance policy is similar to what it was in the previous year before the rebate, which related to an over-recovery of 2007 costs.
- 8. The Sickness/Accident Fund is a self funded fund to provide assistance to parishes when their minister or assistant minister suffers a short term incapacity. The proposed contribution represents the amount needed to ensure that the Fund can meet claims and accumulate adequate reserves for those years when claims may be higher than expected.
- 9. The minister and assistant minister charge applicable to a parochial unit will be reduced by a pro rata rebate for any part of the year for which the contributions, costs and charges for the minister or assistant minister are paid by another parochial unit or body, or do not apply to the minister or assistant minister.

Other ministry and property charge

10. Each parochial unit is to pay a variable ministry and property charge, calculated as a percentage of their net receipts, to recover the

costs of the parish insurance program, two-thirds of the cost of the Professional Standards Unit, and a small provision for changes and relief. The variable charge covers the following costs.

	Approved in 2008	Recom- mended in 2009 \$000s	Increase %
Parish Insurance Program	2,888	2,900	0.4%
Professional Standards Unit	330	395	19.7%
Provision for changes/relief	30	20	(33.3%)
Total	3,248	3,315	2.1%

- 11. The parish insurance program provides insurance cover for property and contents, public liability and other risks. The estimated cost of that program in 2009 is \$2.9 million, representing a 0.4% increase on the 2008 cost. The main cost of this program is insurance premiums on the policies.
- 12. In conjunction with the 2008 insurance premium renewal process, the Property Trust Board formed the view that it would be prudent to attempt to fix some or all of the insurance premium for a term, in the expectation that insurance premium rates were now at, or close to, the low point in the cycle. Although only one insurer was prepared to accommodate this request, the rate of premium associated with 56% of the total premium spend in 2007 has now been fixed at 2007 levels until August 2010. Most other insurers appear unwilling to quote term premiums this year. Nevertheless, in recognition of the Diocese's promotion of prudent risk management practices which has contributed to a relatively low claims history, our broker expects only minimal increases in the balance of the insurance premiums in 2009.
- 13. In 2006 a new charge on parishes was introduced, being a two-thirds contribution to the costs of the Professional Standards Unit (PSU). The other one-third is funded through a Synod grant under Administration for the Mission. The budget for the PSU in 2009 indicates that to maintain the two-thirds contribution will require an amount of \$395,000 to be recovered from parishes through the variable ministry and property charge.
- 14. After taking account of the actual amounts of unpaid cost recoveries charges written off in recent years it is proposed to set the 2009 contribution towards the provision for relief or remission from the cost recoveries charge of \$20,000, compared with \$30,000 in 2008.

Cost Recoveries Charge for 2009

- 15. Applying the formula in the schedule to the proposed ordinance to the costs for 2009 gives
 - (a) minister and assistant minister with 7 or more years service charge estimated at \$11,052 (2008 \$10,719) and

- other assistant minister charge estimated at \$10,191 (2008 \$9,871) plus
- (b) the variable ministry and property charge calculated as 4.64% (2008 4.8%) of each parochial unit's 2007 net receipts to cover the other ministry and property costs for 2009.
- 16. Appendix A sets out the method of calculation of the cost recoveries charge together with an estimate of the variable ministry and property charge for each parochial unit.
- 17. The actual minister and assistant minister charges for each parochial unit for 2009 will be based on the Registrar's records of ministers and assistant ministers licensed to each parochial unit, less any adjustment for a rebate in accordance with paragraph 8 above.
- 18. Where the actual net receipts for a parochial unit for 2007 had not been finalised at the time of this report, an estimate is shown in the Appendix. Actual net receipts may not be finalised if the parochial unit has not yet submitted its 2007 Annual Financial Return, or has submitted an incomplete Annual Financial Return, or some aspect of the calculation has been queried and the query has not been resolved at the time of this report.
- 19. The actual variable charge may vary if the actual Net Receipts for 2007 for those parishes that had not lodged their Annual Financial Return prior to the compilation of this report differs significantly from the estimate shown in this report, or if the actual increase in insurance premiums differs significantly from the estimates used in this report.

Recommendation

20. The Standing Committee recommends that the Synod pass the proposed Parochial Cost Recoveries Ordinance 2008 as an ordinance.

For and on behalf of the Standing Committee BISHOP PETER TASKER

29 August 2008

Appendix

Estimated Parochial Cost Recovery Charges for 2009

(based on AFRs received up to 31 July 2008)

Minister and Assistant Minister Costs

Fixed charge per Minister	\$11,052
Fixed charge per Assistant Minister with 7 or more years service	\$11,052
Fixed charge per other Assistant Minister	\$10,191
/ariable Charge	

٧a

Cost of parochial property and liability		
insurance program	2,900,000	
Cost of 2/3 rd contribution to Professional Standards Unit	395,000	
Provision for relief or remission of cost		
recoveries charges	20,000	
	3,315,000	
Total Net Receipts for 2007	71,438,009	
Vaniable about management and fan 0000		

Variable charge percentage for 2009 4.64%

Accordingly, the PCR charge for each parochial unit in 2009 will consist of the sum of -

- (i) The actual minister and assistant minister costs, based on the cost per person shown above, multiplied by the number of such persons licensed to and paid by the parochial unit in 2009, plus
- (ii) The variable cost charge shown below, based on the variable charge percentage for 2009 of 4.64% shown above multiplied by the Net Receipts of the parochial unit for 2007 (shown below).

Note that the PCR charge does not include any costs for any Lay Ministers employed by the parochial unit.

Detail of estimated variable charge and asbestos inspection charge by parochial unit

If a parochial unit had not lodged a complete 2007 Annual Financial Return prior to the date of this report (1 July 2008), or an aspect of the Return has been queried but not yet resolved, the table below shows an estimate of the Net Receipts figure for 2007 based either on the information lodged to date or the 2006 actual.

If the 2007 Annual Financial Return for a parish is still outstanding at the time the actual 2009 parochial cost recovery charges are due to be invoiced later this year, the Finance Committee has approved the use of a charge based on that parochial unit's Net Receipts for 2006 + 20%.

Note: * P = Parish, PP = Provisional Parish, RC = Recognised Church, PRC = Provisional Recognised Church
